

**TWO HEARTS PATTERN**  
Copyright 2006 – Pop Goes the Needle/Q Branch Ltd.

Needed: Two/Three Strand Punch Needle  
Three inch hoop  
Sharp Scissors  
DMC Floss Colors: **666 Bright Red**  
**3354 LT Dusty Rose**  
**823 DK Navy Blue**

Fray Check  
Bottlecap  
Small Pinback  
Epoxy or other strong glue  
Tacky Glue

Gauge:  $\frac{1}{4}$  inch (from middle of the eye of the needle to the base)

Instructions:

1. Trace or transfer the pattern to weaver's cloth. Reverse, if desired.
2. Punch the outline and then fill in the full heart with two strands of DMC #666 (Bright Red).
3. Punch the outline and then fill in the partial heart with 2 strands of DMC #3354 (LT Dusty Rose)
4. Punch the outline of the circle and then fill in with 2 strands of DMC #823 (DK Navy Blue)
5. To finish – remove from hoop. Using Fray Check or other fabric glue, place the glue around the border of the circle of stitches on the back (non-loop) side. Allow to dry completely. Using sharp, small pointed scissor (preferably a curved blade scissor) cut out the circle from the fabric, cutting close to the edge of the stitches. Cut from the loop side, under the last row of stitches avoiding cutting any of the loops. Using Epoxy glue or some other strong glue, glue the pinback to the back of the bottlecap. It is recommended that using a piece of sandpaper, you lightly sand the area on the back of the bottlecap where you will glue the pinback. Allow to dry completely. Put some tacky glue on the inside of the bottlecap and holding the cap straight with the pin as it would be worn, place the punch needle circle inside the cap. Position it straight – or as desired. Allow to dry. Enjoy your new pin.

Basic Punch Needle Instructions may be found on the HOW TO PUNCH page of
